**2. Conscious Healing, 6 Healing Sounds, Meditation, and Other Ways To Practice Self-Love**

**Instructor:** Dieter Runge  
**Dates:** Sundays, Jan 26, Feb 2, 9, 16, 23, Mar 1  
**Time:** 10:00 – 11:45 am  
**Location:** Krauss 112

As a musician in 1980s New York, I signed up for a meditation class that included the Inner Smile and the Six Healing Sounds. It was the healing sounds that pulled me to sign up for this particular class. Mantak Chia became my first teacher and this class was the beginning of a 40-year long study and practice of taiji, qi-gong, meditation, yoga, and ayurvedic cooking. In this class we will begin with the inner smile and the six healing sounds and add meditation and movement - expanding with other practices of qi-gong, elements of taiji, and draw from yogic and ayurvedic traditions to develop a contemporary and personal practice of continuous self-healing. Many of these can be practiced sitting down and are as powerful as they are simple. The healing sounds relate to our organs and emotions, and are especially useful to practice before going to sleep to help calm down, relax, and find better sleep.

Dieter Runge taught many classes at OLLI-UHM from 2001-2008 while completing degrees in Psychology, and Fine Art at UH. A member of the board of Honolulu Printmakers, Dieter prints; paints; creates fashion; makes music; gardens; practices/teaches taiji/qigong, yoga, and ayurvedic cooking; and just finished his rock’n roll memoir.

**3. Art, Music, Fashion, & Film From A DIY Perspective**

**Dates:** Sundays, Jan 26, Feb 2, 9, 16, 23, Mar 1  
**Time:** 12:00 – 1:45 pm  
**Location:** Krauss 112

Social and pop cultural movements from a DIY perspective. What is useful today from social, political, and artistic experiments from the past? Coming from personal experiences as an activist, musician, artist, and teacher Dieter invites the audience to re-examine these experiments for inspiration in the present. Have you ever participated in a demonstration? Made your own clothes that made a statement? Lived in a commune? What makes us more creative and resilient today? Is it possible to share experiences and keep developing alternative forms of relating to each other and society, especially as we are getting older? How does loneliness and community play into all of that? Can we still become bolder and more open in our later years? Many ideas and concepts that were explored in earlier times remain or even have become more valid again today. Come share and explore together.

**4. Exploring The Unexplained: ESP, ET’s, and Ghosts**

Although many people haven't experienced the "Other World," evidence supports it. Among other phenomena, such as angels and near death experiences (NDEs), extrasensory perception (ESP), extra-terrestrials (ETs), and hauntings by ghostly spirits have been documented. Each week, we'll explore another facet of the unexplained, using various means including: reading handouts, viewing films, and having class discussions sharing first-person testimonials. Participation is encouraged.
Lisa has had experiences beyond the five senses ever since she can remember. After years of study, she's still curious about the unknown surrounding us.

The road-trip genre has become a standard storytelling format, an especially American theme, where the characters may seek change, adventure, escape, or self-knowledge. Its format, often, but not always comedic, offers a variety of locations and characters, which makes these films ideal for our Sunday Matinee series.

Jan 26 - *It Happened One Night*, (1934) 105 min.  
A classic screwball comedy featuring Clark Gable and Claudette Colbert. One of the only films to win all 5 of the major Oscar categories.

Set in California’s wine country, this film is "...charming, thoughtful, and often funny… a decidedly mature road trip comedy full of excellent performances."

A likeable, funny road movie about a dysfunctional family headed for a children’s beauty pageant in their VW van.

We will see a number of those films (*Crouching Tiger Hidden Dragon, Eat Drink Man Woman, Life Of Pi, Sense And Sensibility, Pushing Hands, Gemini Man*) as well as *Wild Strawberries*, and *Cries And Whispers* by Bergman and *Bamboozled*, and *BlakkkKlansman* by Spike Lee. Good boots or hiking shoes and a good day-pack are needed for the hikes. There are many well-known trails on O‘ahu, some maintained by the State and others under private jurisdictions. In addition, experienced hikers know of many obscure, less traveled trails that often pass through more pristine wilderness. We will start out on the former kind of path and work our way up to reach some of these more obscure byways. The first few hikes will be easy and have few challenges, but as time passes, and if the interest and ability of the group permits, we will move on to longer and more adventurous walks.

Mike has led over 6000 Nature Tours for guests from other climes since 2001. He is a Lifetime member of the Hawaiian Trail and Mountain Club and has led hikes for them. He is a member of Solemates - a wonderful group of people who hike on Wednesdays, as well as the Sierra Club, for whom he does service projects.

Recommended text: Russian Short Stories from Pushkin to Buida (Penguin Classics), edited by Robert Chandler (with his own translations from the Russian).

For the first meeting please have already read Pushkin's "The Queen of Spades" and Lermontov's "The Fatalist" so we can begin the class discussion right away.

His fields of interest include Victorian literature, contemporary drama, and 20th century fiction. Instructor: Pradip Kar
Dates: Tuesdays, Feb 4, 11, 18, 25, Mar 3, 10
Time: 10:00am - 12:00pm
Location: Krauss 112

Mathematics has a fascinating history and captures many significant milestones in the progress of mankind. In this class, we will first review materials from Part I, (which was presented last spring) including the central concepts of mathematics: abstraction; methods of reasoning; inductive and deductive logic; and axioms and the formal proof. Most topics are developed through class discussions and solving problems. We examine number systems used in ancient times and solve numerical problems in the different number systems. (So bring a paper and pencil! And note that the problems will be new). We will also review the contributions of the great mathematicians of ancient Egyptian, Mesopotamian, Chinese, and Indian civilizations.

In Part II we cover the contribution of American civilizations such as the Incas and Maya, and the Orient (India, China, and the Arabs) after the decline of Greek society. Finally we cover developments in Western Europe during the Middle Ages, translations of Arabic texts (themselves translations from Greek and oriental civilizations) and developments through the 16th century.

This course is about what palaeo-anthropology can tell us about ourselves, our species, and maybe even its survival! Among the topics covered in the lectures are: how to find, interpret, and date fossils; spending a day in the fossil fields of Africa with the palaeo-anthropologist; the pluses and minuses of our erect bipedalism; the ups and downs of human status for Neanderthal; new theories that might shock even Darwin, and more! Time for questions at the end of each class.

Becky Sigmon, a palaeoanthropologist with research interests in earliest human evolution such as when, how and why we became upright bipeds, has participated in an Ethiopian palaeontological expedition, and lived briefly with the San hunter-gatherers of the Kalahari desert to conceptualize earliest human subsistence patterns. Her long term interest continues to be “what is human?” Recent books include: Human Ecology and Challenges in the 21st Century (2012), and Physics, Evolution, God: Mass and Nomass (with R.L.Dowden) (2011, and updated 2015).

18. Preserving Archaeological Sites in Hawai‘i

Instructor: Sara L. Collins, Ph.D.
Dates: Tuesdays Mar 24, 31, Apr 7, 14
Time: 10:00 – 11:30 am
Location: Krauss 111

Hawai‘i has a rich cultural heritage reaching back nearly a thousand years. The number of identified traditional Native Hawaiian archaeological sites is in the thousands now and yet only a fraction of them are formally preserved for future generations. The majority of historic sites that are now nominated to the Hawai‘i Register of Historic Places are architectural properties, ranging from private homes to public schools and parks. How well does our state’s historic preservation law work (or not) when it comes to identifying and preserving archaeological sites? Should more archaeological sites and traditional cultural properties be preserved? How can citizens participate in the historic preservation process?

During this class, we'll first consider the origins of historic preservation in Hawai‘i. Then, a brief overview of Hawaiian archaeology will be followed by an exploration of modern-day preservation measures as carried out by both government and private sector organizations. We will also consider the ways in which citizens can participate in the historic preservation process.

Sara Collins is a Physical Anthropologist and Archaeologist with over 40 years of experience in Hawaii and the Pacific, including serving as the Oahu Archaeologist and Archaeology Branch Chief with the State Historic Preservation Division (SHPD), working at Bishop Museum, and serving as Affiliate Graduate Faculty, Department of Anthropology, UH Mānoa.

Time: 10:00 - 11:30 am
Location: Krauss 112

This course focuses on various kinds of meditation and how meditation in general relates to everyday life. Meditation will be seen not only as a method of attaining peace and tranquility but as a means to increase one’s ability to more lucidly perceive one’s daily experiences and the mental states that accompany and help ‘define’ personal experience. Each class will consist of short introductory comments on some meditational discipline, guided meditations, a documentary of between twenty to fifty minutes on some meditative discipline, and finally, class questions/discussion. Documentaries will focus on founders, meditational strategies and methods, and the particular ‘wisdom’ each meditational discipline considers important for the practitioner. Diaries will be kept by the students describing their meditational experiences and will serve as discussion material during small group discussions at the beginning of each class.

Richard Bradshaw spent twenty-six years teaching in Japan while traveling extensively and living for short periods in many Asian countries. He has practiced yoga and meditation daily for over fifty years. Richard has taught yoga for the UH Dept. of Religion, at a university in Japan, at a yoga organization he started in Japan, and as a volunteer for the students at the East-West Center.

Whether you want to brush up on that old college philosophy course or just get acquainted with the subject for the first time, this course promises to be interesting as well as educational. It will combine lectures, along with class discussions, in order to stimulate thought and share ideas among ourselves. From Thales to Plato to Aristotle, Greek philosophers present a widely diverse assortment of ideas and perspectives, many of which remain controversial to this day. Greek philosophers established the groundwork of modern academic philosophy and challenge us to make up our own minds about the great questions of philosophy.

Raymond Steiner earned a Ph.D. in Philosophy at the University of Hawai‘i and taught Philosophy, Religion, ESL, and American Culture in Hawai‘i, Japan, and Colorado. These days, he writes philosophical essays and short stories in a sci-fi context.

28. Aging and Dying with Dignity: End-of-Life Issues

**Instructor:** Joel Merchant, Principal, Navigating the Journey  
**Dates:** Weds Jan 22, 29, Feb 5, 12, 19, 26, Mar 4, 11  
**Time:** 1:00 - 3:00 pm  
**Location:** Krauss 113B  
**Enrollment Limit:** 10

New technologies and political circumstances have created more ambiguities regarding the issues and choices surrounding end-of-life, the definition of death, and how to deal with dying. Individuals who make an effort to become more informed about the options may be in a better position to influence events in their own lives and those of their loved ones. We will: 1) discuss and clarify options regarding aging, dying, and end-of-life issues; 2) provide information and discuss our experiences in the areas of elder care, hospice care, financial matters, long term care, and advanced directives; 3) review, discuss, and make decisions regarding advanced care in the areas above, as well as POLSTs, and advanced care planning options.

Joel Merchant has long been involved in social, religious, political, community, and non-profit causes in Hawai‘i, culminating in what he calls his final community outreach efforts: organizing, participating in, and facilitating group conversations about end-of-life issues.
29. Culinary Cinema XIX: “Not Best Picture” Series

**Instructor:** Tom Sheeran  
**Dates:** Wednesdays, Jan 22, Feb 19, Mar 25, April 15  
**Time:** 3:00pm - 6:00pm  
**Location:** Krauss 111

In this series we watch 4 excellent movies that did NOT win the Oscar for Best Picture, but have stood the test of time to be considered better cinema than their competitors did win. Following each film, participants may choose to join the group for dinner at a local restaurant, where we will enjoy a meal together.

**Jan 22 - Five Easy Pieces** (1970) 96 min. Jack Nicholson proved he was a great actor and became a star in this insightful character study, which critics now favor far more than *Patton* which took home the Oscar.

**Feb 19 - Network** (1976) 121 min. *Rocky* won the Oscar and remains popular, but *Network* is now recognized as a much more important film.

**Mar 25 - Tootsie** (1982) 116 min. Though *Tootsie* lost to *Gandhi*, this small masterpiece of intelligent comedy, is much more relevant today. Dustin Hoffman’s performance is brilliant and more memorable, even though he lost to Ben Kingsley.

**April 15 - Philadelphia** (1993) 125 min. While *Schindler’s List* got Best Picture, Tom Hanks won the Oscar for Best Actor in one of the first mainstream Hollywood films to acknowledge HIV/AIDS, homosexuality, and homophobia.

Post-film dinners will be held at local restaurants, locations to be announced. We aim for pleasant, quiet neighborhood places with reasonable prices. Participants pay on-site for their own meals and drinks. Please note: Seating at restaurants is limited to 24 and RSVPs are required for each session.

30. Showing and Telling: Docudrama and the New Documentary

**Instructor:** Phyllis Frus

**Time:** 2:00 to 5:00 pm  
**Location:** Krauss 111

Many critics of history-based films evaluate them by what they got right and wrong in adapting the events to film. In this class we will examine how two particular modes of telling historical stories on film—docudrama and documentary—convey their interpretations of historical figures and events by using techniques borrowed from fictional film for dramatic effect and to guide our sympathy.

**Jan 29 - Conspiracy** (2001), HBO. Senior Nazi officials consider how to best implement the "Final Solution" to the so-called Jewish Question.

**Feb 12 - 13 Days** (2000). Feature film about the Cuban Missile Crisis.

**Feb 26 - The Thin Blue Line** (1988). This film paved the way for new kinds of documentary.

**Mar 4 - Waltz with Bashir** (2008). This fusion of animation and documentary explores war and memories of a 1982 massacre in Lebanon.

**Mar 11 - American Splendor** (2003). Called “a mixture of fiction and reality,” the film is first person, like the graphic novel it is drawn from.

Phyllis Frus taught writing, American literature, women’s studies, and film studies for 25 years at institutions ranging from New York University, Hunter College, and the Juilliard School to Hawai‘i Pacific University.

Charles Bukowski was a Los Angeles-based writer who can be classified, along with Jack Kerouac, as a major contributor to the latter half of 20th century American literature. From a hardscrabble existence on the margins of society, his prodigious talent and the total dedication to his craft overcame adversity and resulted in several novels, over 5,000 poems, and numerous “underground” articles in The Los Angeles Free Press. Interest in his writing has increased exponentially in recent years. Fortunately, we have a good deal of film of Bukowski reading his poetry as well as interviews and documentary information that allow us an insightful picture of the man and his work. Join us to discover what all the fuss is about.

Good boots or hiking shoes and a good day-pack are needed for the hikes. There are many well-known trails on O‘ahu, some maintained by the State and others under private jurisdictions. In addition, experienced hikers know of many obscure, less traveled trails that often pass through more pristine wilderness. We will start out on the former kind of path and work our way up to reach some of these more obscure byways. The first few hikes will be easy and have few challenges. As time passes, and if the interest and ability of the group permits, we will move on to longer and more adventurous walks.

After a career as an architect, David moved to Honolulu and worked as a tour guide with Oahu Nature Tours, doing over 800 hiking and scenic driving tours. 43. Life Writing

**Instructor:** Ann Rayson, MA, Ph.D., Ret. Prof. English.

**Dates:** Fridays, Feb 7, 14, 21, 28, Mar 6, 13

**Time:** 1:30pm - 3:00pm

**Location:** Krauss 112

**Enrollment Limit:** 12

**Required text:** *Living to Tell the Tale*, by Jane Taylor McDonnell, (Penguin Press, available in paperback.)

In this life-writing workshop we explore significant people, places, and events that have shaped our lives. We will share rough and finished writing, engage in creative writing exercises sometimes in class to prompts, and read aloud longer pieces of our writing (usually not over 500 words, which equals two pages typed and double spaced) each week. The class objective is to gain a better understanding of self and culture and to acquire techniques for more effective expression. Because some class members have been taking Life Writing for 4-5 years, we will not go through the text in class, but please use it for your own purposes as it is very helpful. Come ready to discuss and share your writing and your life.

Each semester has new and different assignments, based each week on a short reading presented by the instructor to stimulate creative thinking and help you get your writing underway.

44. Travel in Spain and Portugal

**Instructor:** Tom Sheeran

**Dates:** Fridays, Feb 14, 21, 28, Mar 6, 13

**Time:** 10:00am - 11:30am

**Location:** Krauss 111

In this series of ‘armchair’ travelogues we explore both famous and lesser-known areas that draw visitors to enjoy the natural beauty, rich culture, delicious cuisine, and traditional festivals of Spain and Portugal.

Feb 14 - Travel in Northern Spain. From the rugged Atlantic coast of Galicia to the Basque country famous for tapas, and Pamplona for the running of the bulls, northern Spain offers rich experiences in history, culture, nature, and gastronomy.

Feb 21 - Travel in Eastern Spain. We visit Barcelona, energetic city of art and architecture on the Mediterranean; Valencia, home of paella, where the huge public market is always full of the freshest seafood and produce; and the thriving Balearic Island resorts of Majorca, Minorca, and Ibiza.

Feb 28 - Travel in Central Spain. Madrid, the capital, is full of world-class museums, grand royal palaces, and vibrant nightlife. Segovia’s Roman aqueduct and Toledo’s great cathedral are highlights, while north of Madrid is the austere grandeur of the large region of Castilla-Leon.

Mar 6 - Travel in Southern Spain. From the Mediterranean resorts of the Costa del Sol to Granada and Seville, Andalusia is rich in tradition with a Moorish accent. Ancient Cadiz, founded by Phoenicians, faces the Atlantic while medieval hilltop towns dot the arid landscape inland.

Mar 13 - Travel in Portugal. The Atlantic Ocean has influenced many aspects of Portugal’s culture: salt cod and grilled sardines are national dishes. Lisbon, once capital of a vast colonial empire, is now a lively multi-cultural city with UNESCO-heritage architecture, great cuisine, and the annual Carnival festival.

45. Primaries, Caucuses, Conventions: How US Political Parties Nominate Presidential Candidates

**Instructor:** Tom Sheeran

**Dates:** Fridays, Jan 24, 31, Feb 7

**Time:** 10:00am - 12:00pm

**Location:** Krauss 111

The US Constitution nowhere mentions political parties, let alone primary elections, party caucuses, or conventions. These practices have grown up over time to become the current methods by which our major parties choose their candidates for the highest office in the land.

In this 3-part series we will examine the history of these institutions, their evolution over time, and their role in our current political system. This won’t help you pick the person YOU want to be our next president, but should give you a better understanding of how this often confusing process produces the choices you will have in November 2020.

Jan 24: 1789-1948

Development of early US political parties; domination by party officials; Conventions allowing party insiders to continue to influence (or control) nominations; Progressive era reforms introduce primary elections allowing some voter input.
Jan 31: 1948 – 1960
Primary elections gain importance; Importance of mass media; Historic election video.

Feb 7: 1960 – Present
Caucuses, debates, polls, money, political-action committees; Activists and voter preferences equal or exceed party-insider influence; How it works in 2020.

46. Morality and Immorality in the Bible

Instructor: Imra Sowers, BA Hebrew U of Jerusalem, MA New School for Social Science, M.Ed UArizona
Dates: Fridays, Jan 24, 31, Feb 7, 14, 21, 28, Mar 6, 13
Time: 10:00 – 12:00
Location: Krauss 113B

In this exploration of ethical issues in the bible we will look at the actions of some of the heroes, certain deeds and events, many of the laws and commandments, and together judge their morality or immorality. Please bring an old testament book with you, in any language, to class.

47. Natural History of Hawai‘i and the Pacific

Instructor: Arthur Reed, Prof. Emeritus Zoology UHM
Dates: Fridays, Jan 24, 31, Feb 7, 14, 21
Time: 1:00 – 3:00 pm
Location: Krauss 111

This series of lectures will start with how the islands of the Hawai‘i were formed and continue to evolve. We will see how wind, weather, and waves are all interrelated, and discuss how other types of waves, tides, and tsunamis are formed. You will see how coral organisms grow and reproduce eventually forming the massive coral reefs that surround tropical islands and how these reefs evolve with the islands. We will look at some of the marine invertebrates and fish that live on and around the reef, how their form or anatomy is closely related to their function, and which ones are dangerous to us and to other organisms, and finally examine how land plants and animals got to the Hawaiian Islands, which were endemic, indigenous, or introduced, and how humans altered the survival of these organisms.

Before retirement, Art Reed was Professor of Zoology at the UHM campus. His interests were in coral reef biology, marine invertebrates, and marine education at the high school level. After retiring he became a group leader and lecturer in the Elderhostel/Roadscholar programs and developed a series of lectures on geology, meteorology, biology, and history of the Pacific and Hawai‘i.

48. Tech Trends 2020: Science Fiction and the Real World

Instructor: Leo Doucet, BFA
Dates: Fridays, Feb 28, Mar 6, 13 (no class Mar 20), Mar 27, Apr 3 (no class Apr 10), Apr 17
Time: 1:00 – 4:00 pm
Location: Krauss 111

We live in an exciting but uncertain time. This course will explore a variety of topics including, but not limited to, Artificial Intelligence, Robotics, Human-Machine interface, Self-Driving cars, Virtual and Augmented Reality, Biotechnology and the concepts of Singularity and Exponential Technologies. Using a variety of documents, TED talks, and Singularity University videos we will attempt to ‘connect the dots’ to explore the comparison/contrast between Science Fiction and Science Reality. We have a natural tendency to fear what we do not know, so during this course we hope to stimulate an introductory discussion of current and near-future technology and how it relates to us as individuals, as a community, and the future of mankind. Throughout the course, we will ultimately wrestle with the question of ethics in an increasingly technology-dependent world.

Some of the material will be repeated from last year’s class, however, in the world of technology a lot changes in 12 months. Our goal is to explore what has changed and how much it has changed in the past years so students are encouraged to attend and share how technology has shaped their lives.

Leo was born in Canada and graduated from Emily Carr University of Art and Design in Vancouver, with a BFA (Photography major) in 1992. He built his first computer in the late 90s and has been fascinated with increasingly fast-paced world of technology and how it affects our lives ever since.

4SE. Reclaiming Kalākaua: Nineteenth-Century Perspectives on a Hawaiian Sovereign

**Presenter:** Dr. Tiffany Lani Ing  
**Date:** Monday Jan 27, 2019  
**Time:** 2:00 – 3:30 pm  
**Location:** Krauss 111

Come hear Dr. Ing discuss her recently published book, *Reclaiming Kalākaua: Nineteenth-Century Perspectives on a Hawaiian Sovereign* (UH Press), which examines the American, international, and Hawaiian representations of David La’amea Kamananakapu Mahinulani Nalaiaehuokalani Lumialani Kalākaua in English- and Hawaiian-language newspapers, books, travelogues, and other materials published during his reign as Hawai‘i’s mō‘ī (sovereign) from 1874 to 1891.

The book first surveys the negative, even slanderous, portraits of Kalākaua inherited from his enemies, who sought to curtail his authority as mō‘ī. Then through her use of contemporary Kanaka Maoli (Native Hawaiian) examples drawn from hundreds of nineteenth-century Hawaiian-language newspaper articles, mele (songs), and mo’olelo (histories, stories) about the mō‘ī, Dr. Ing restores balance to our understanding that Kalākaua was viewed at the time—by his own people and the world—as an intelligent, eloquent, compassionate, and effective Hawaiian leader. Tiffany Lani Ing is an independent scholar from Mānoa, O‘ahu. She has a PhD in English from the University of Hawai‘i at Mānoa.

6SE. The Traditional Chinese Dress: A 20th Century Creation

Instructor: Dennis Keating
Dates: Monday, February 10, 2020
Time: 2:00pm - 3:30pm
Location: Krauss 111

Is it a Qipao or a Cheongsam? Is it short or long? Is it old or new? In Hawaii the dress is referred to by its Cantonese name, the Cheongsam. In most of China, it is called the Qipao. Whatever we call it, the dress is recognized both in China and internationally as the official dress of China.

Its history is mixed, with old Manchurian and modern western influences. We will delve into the origins of the dress and how it gained in popularity and discuss the three individuals who played key roles in making the dress popular.

The instructor lived in China for ten years and has personally designed and had made several Qipaos, some were full length and formal and worn to international balls; others were short and casual and worn for picnics and street wear.

7SE. NIFI What Should We Do About The Opioid Epidemic?

Presenter: Dolores Foley, Ph.D., NIFI Director
Date: Monday, Feb 24, 2020
Time: 2:00 – 4:00 pm
Location: Krauss 111

National Issues Forums (NIFI), a nonpartisan, nationwide network, brings citizens together to voice their views about challenging social and public policy issues. NIFI provides materials for groups that meet with a moderator to participate in a deliberative guided dialogue. Join us for a National Issues Forum at OLLI-UHM on the topic: What Should We Do About The Opioid Epidemic?

Drug abuse has taken a sharply more lethal turn with the rise of opioids—both legal pain-killers, such as oxycodone and fentanyl, and illegal ones like heroin. Drug overdoses are now the leading cause of death among Americans under 50.

This issue guide presents three options for deliberation. Each option offers advantages as well as drawbacks. If we increase enforcement, for example, this may result in putting many more people in prison. If we reduce the number of prescriptions written, we may increase suffering among people with painful illnesses. Come join us to consider the following three options for deliberation:

- Focus on Treatment for All
- Focus on Enforcement
- Focus on Individual Choice

Reading materials on the topic and more information about NIF are available at www.nifi.org. We will also provide hard copies of the Opioid Epidemic Issue Guide for forum participants.

8SE. Mozart's Don Giovanni with Jim Becker

Date: Monday, March 2, 2020

This opera in two acts based on the legends of Don Juan premiered in Prague in 1787. Regarded as one of Mozart’s supreme achievements and one of the greatest operas ever composed, it combines comedy, melodrama, and otherworldly elements. NPR called it “a brilliant combination of stark human tragedy and touching comedy, set to music of limitless genius.” Filmed on location at a 16th-century mansion in Vicenza, Italy, this 1979 movie version directed by Joseph Losey is highly regarded for the music, voices, acting, costumes, and directing.

Jim Becker will introduce the opera, pointing out things to look and listen for, and play a version of the work from one of the world's leading opera houses.

12SE. Antarctica Yesterday and Today with Maria Lowder

Presenter: Maria Lowder
Dates: Monday, April 6, 2020
Time: 2:00 – 4:00 pm
Location: Krauss 111

This travelogue explores Antarctica in the past and present via Maria Lowder’s travels. Maria was in the second group of tourists to ever go to Antarctica in 1966, when she travelled on an Argentine Navy ship with Lars Linblad, a pioneer in adventure travel. That trip was reported in the September 8, 1967 issue of Life Magazine. In January 2020, she makes a return visit to the Palmer Peninsula directly south of Cape Horn. In this presentation Maria will interweave 8mm film shot in 1966 with current photos. The trips had similar itineraries, but the current tour features much less access. Antarctica is stunningly beautiful and provides many opportunities to see penguins and other wildlife.

Maria was born in England and emigrated to the US in the 50s. Later she moved to Hawai‘i and has called this home for many years. She recently retired as a CPA and is enjoying it. At last count she has been to over 75 countries in a quest to see the world and enjoys sharing her photos with others.

Tuesday Events

14SE. Writer’s Circle

Facilitator: Yi-chuan Ching
Dates: Alternate Tues, Jan 21, Feb 4, 18, Mar 3, 24, Apr 7
Time: 1:00 – 3:00 pm
Location: Krauss 113-B
Enrollment limit: 6-8 only. Previous participants will be given first preference.

Ours is not a class but a cooperative enterprise in which we share what we write and learn from each other’s responses to our work. We meet every other week and take turns informally reading our own work for reaction and comment. All types of writing are acceptable—memoirs, essays and rants, fiction, both short and long, poetry—pretty much anything except political diatribes. You will have a chance to submit work on a regular basis.

After Yi-chuan Ching retired he took courses at UH Mānoa’s English Department. An instructor suggested he volunteer to facilitate a group of senior writers at a new program for seniors that eventually became OLLI. More than twenty years later he is still at it!
15SE. Herbal Medicine in Old Hawai‘i: A Cautious Examination

Instructor: John B. Hall, Prof. Emer., Microbiology
Date: Tuesdays, Jan 21 and 28, 2019
Time: 10:00 - 11:30 am
Location: Krauss 111

If you were ill in the time of Captain Cook and had a choice between being treated by the best European or American doctors or being treated by a good kāhuna, you would have been wise to choose the kāhuna every time. He may not have been able to cure you, but he was certainly much less likely to kill you with the ghastly medical treatments of that era. In these presentations, we’ll explore the state of Hawaiian medical practices before the arrival of Captain Cook and look at some of the individual plants that the kāhuna lāʻau lapaʻau (practitioners of healing) brought to bear on the treatment of a patient.

16SE. UHM Campus Arboretum Tour 1 – Hawai‘i Hall

Presenter: Noweo Kai, Curator, Campus Arboretum
Date: Tuesday, Jan 21, 2020
Time: 9:30 – 11:00 am
Enrollment Limit: 20
Location: Meet at Krauss 113; then walk to Hawai‘i Hall.

The grounds of the University of Hawai‘i are an accredited arboretum, showcasing plants from Hawai‘i, the Pacific, and across the tropics, including a number of truly exceptional trees, such as the largest Baobab in the United States, and serving as an outdoor laboratory for faculty and students studying horticulture, Hawaiian studies and natural history. Campus Arboretum Curator Noweo Kai is offering four separate tours showcasing different aspects of the amazing collection of plants that give our campus its unique character. Though each tour has a slightly different focus and spatial location, all will provide the opportunity to visit/get to know select plants to ultimately reveal the outstanding diversity of the botanical odyssey that is the UH Mānoa campus. Sign up for each tour separately.

17SE. Inundation: Art and Climate Change in the Pacific

After experiencing the exhibit, join Jaimey in further discussion on climate change, climate justice and the emotions the disasters of climate change can evoke.

Prof. Hamilton Faris is an associate professor, art writer and critical theorist specializing in contemporary art at the intersection of globalization and climate change, especially in the Asia Pacific Region. She is also a specialist on sixties expanded arts: Pop, Assemblage, Neo-Dada, Fluxus, New Realism, etc. -- art at the advent of the global economy and the age of plastics.

This colorful travelogue is an account of John Hall’s 11-day, 100-mile walking safari through remote stretches of West Tsavo and East Tsavo National Parks in Kenya, two of Africa’s great game parks. Along his off-the-beaten-track journey with a small group of hikers and guides, John enjoyed close encounters with elephants, giraffes, cape buffalos, hippos, leopards, dik-dik, lions, and more. If you’ve ever wanted to experience an African safari (no hunting, just cameras and binoculars), join us for this travel lecture.

Wednesday Events

19SE. Reconsideration of an Ancient Creation Parable

Instructor: Saleem Ahmed, Ph.D.
Dates: Wednesday, Feb 28, 2020
Time: 6:00 - 7:30 pm
Location: Krauss 111
Enrollment Limit: 35

A long time ago, a holy man shared a parable with his followers, explaining how the earth evolved after its creation:
God created clay on Saturday, mountains on Sunday, trees on Monday, things entailing labor on Tuesday, light on Wednesday. He caused animals to spread on Thursday, and created Adam on Friday.

Not understood for the past several centuries, this description of the evolution of our world has been considered scientifically incorrect and relegated to the backburner, especially since it suggests that light (on Wednesday), was created after plants and animals (on Tuesday). How did the trees get their photosynthesis without light?

However, Saleem, with his M.S. in geology, finds the parable to be a valid summary of the earth’s evolution. In this presentation he will explain his reasoning, as well as suggest that many other ancient thoughts, similarly considered inaccurate, take on a significantly different meaning when considered metaphorically.

Thursday Events

20SE. Food for Thought

Facilitator: Carole Mandryk, foodie, baker, chef
Dates: Thursdays, Jan 23, 30, Feb 6, 13, 20, 27
Time: 10:00 am to 12:00 noon
Location: Krauss 112

“Pull up a chair. Take a taste. Come join us. Life is so endlessly delicious.” ~ Ruth Reichl

Food is more than nutrition for the body; it is also sustenance for the soul. Food memories are part of the emotional narrative of our lives. Comfort foods remind us of who we are, and where we came from. Or perhaps, we just like to talk about what we like to eat, where we ate it, whom we ate it with. You can engage at any level – deeply or skimming the surface. The only requirement is to share food memories and recipes. What recipes were passed down to you from family and friends? What do they mean to you? Where did you eat last night? Should we go? Did you just bake ginger rosemary shortbread? Did you bring enough to share? In recent semesters we have used class time for a field trip to a restaurant. Have you been to Sweet E's? The 220 Grille at KCC? We have© Where should we go next?

Carole Mandryk is an inveterate foodie. She likes to talk about, read about, bake, cook, imagine, share, and eat food.

Getting to OLLI-UHM

Alternatives to Driving

Parking at UHM is increasingly difficult, tricky, & costly. Consider taking TheBus, the free UHM Rainbow Shuttle, car-pooling, or a ride share.

TheBus

How to get to UH on TheBus (excellent brochure): http://www.thebus.org/Fare/U-Pass_UHM_Flyer.pdf

NOTE: The official Honolulu bus tracking app available on iTunes shows bus riders where the bus is and when it will pick them up on UH Mānoa campus.

Free UHM Rainbow Shuttles

The Rainbow Shuttle is one of the sustainable options that UHM makes available at no charge. Shuttle routes travel into Mānoa Valley, Moiliili, Kaimuki and Makiki.

All shuttles are air-conditioned, ADA-compliant and equipped with bike racks. To ride the Rainbow Shuttle, you are required to show a valid UH ID or sign up to get a free shuttle card. OLLI-UHM members are now entitled to get UH IDs (Cost is $10 at the 2nd floor of Campus Center after first week of classes each semester). Check with OLLI office for procedure.

Shuttle arrivals may be tracked in real time via the UHM Shuttle app or at uhmsshuttle.com. See schedule & study the route maps to see if they offer you an alternative to driving http://manoa.hawaii.edu/commuter/dayshuttle.php.

Most useful UHM Rainbow Shuttle Routes:

F1 – Mānoa/Faculty Express Route Begins at Mānoa Faculty Housing near Mānoa Marketplace neighborhood. Runs 7:00am – 5:45pm

M1 – Makiki/Moiliili Express Route Travels down Metcalf and Wilder, ranges as far away as King and Keeaumoku (see route map). Runs 6:30am – 5:45pm

N1 Night Shuttle Could be ridden from Andrews Amphitheatre down University to e.g. Long’s Drugs on Beretania. Runs 5:00pm – 11:15pm

W1 - Wai‘alae Avenue Express Route Begins at Koko Head Avenue, travels down Wai‘alae Ave (see route map). Runs 6:30am – 5:45pm

*P1 - Parking Express (see route map). Route starts at Hawaiian Studies, 20 minute route, circles main campus counter clockwise via East-West Road, Maile Way, University Ave and then Dole. You could take this shuttle from Varney Circle to “close the loop” from e.g., F1 or M1 shuttles, getting off at shuttle stop in front of law library across from Krauss Hall. Or park at Hawaiian Studies/Dole Street Parking structure, take the Parking Express shuttle and get dropped off at the new shuttle stop adjacent to Andrews Amphitheater. Runs 7:00am – 6:00pm

Tips: The closest Route F1 stop to Krauss Hall is Varney Circle. The closest Route M1 stops are Varney Circle and Sinclair Circle on Univ. The closest Route W1 stops are either Varney Circle or Burns Hall. The closest Route N1 & Route P1 stop is Andrews Amphitheater. 25
RIDE SHARE TIPS

Many UH buildings lack the accurate street addresses needed by Lyft, Uber, and Handi-Van Drivers to book rides. The closest buildings to Krauss with actual addresses are the John Young Art Museum (2500 Dole St), and the Art Building (2535 McCarthy Mall).

PARKING

Off Campus Parking

Off Campus Parking Locations, such as Church of the Crossroads (1212 University Ave), and Mānoa Valley Church (2728 Haupala Street), have reasonable rates and are located on shuttle routes. See: https://manoa.hawaii.edu/commuter/offcampusparking.html

ON CAMPUS PARKING

Lower Campus

Visitor parking is theoretically available from 5 am to 4 pm for a flat fee of $5. However, without a UHM parking permit (which only full-time UHM students and employees are eligible for), it is hard to access parking on campus between 9:00 am and 1:30 pm, Monday through Friday. Our members report “Lot Full” signs as early as 8:30 am and until 1:30 pm. Commuter Services asks us to “please understand that about 26,000 affiliates access our campus daily, causing lots to fill by 10 a.m.” Come early to get a parking spot. Enter the main Parking Structure on Lower Campus Road (first right off Dole Street past the University Avenue and Dole Street intersection). After 4 pm, on Saturdays, and for special events, the flat fee is $7

Upper Campus

Visitor parking is limited & expensive: from 6:30 am to 4 pm Monday through Saturday, the parking fee is $6 per hour. The green striped visitor stalls in the parking lots at Orvis Auditorium, Sinclair Library, behind Kennedy Theatre, next to Kuykendall Hall, and at Varney Circle have Pay-to-Park ticket machines; place receipts face-up on dashboard.

Handicapped Parking Permits

With a current valid City & County Disability Placard and UHM ID you may purchase a campus visitor parking entry for $5 at campus entry gates and park in any legal, marked parking stall on campus. You may also be asked to show your blue card that you received with your hangtag, along with your UH ID. If your visitor parking receipt for that day is not visible face-up on the dashboard, and your ADA parking placard is not clearly hanging on your rearview mirror, you WILL get a ticket. NOTE: You may be told this perk is no longer available, but it has been extended through June 2020.

Electric Vehicles

Cars with an Electric Vehicle (EV) license plate can park for free for up to 3 hours in valid Upper Campus visitor parking stalls between 6:30 am and 4:00 pm Monday to Friday, and all day on weekends; and in the Lower Campus Parking Structure on a space available basis, i.e., you may not be allowed in the parking structure while the “Lot Full” is displayed.

*Parking Violation Fines have been increased and range from $40 to $260. Please pay attention to signs and instructions to avoid getting expensive citations! Do not park in loading zones, reserved parking, etc.

This is a simplified map of campus. Not all buildings are shown, and distances and building sizes are not to scale, but key points of interest to OLLI members are indicated. Note location of Campus Center (where IDs are obtained), Lower Campus parking structure, Varney Circle, Andrews Outdoor Theatre, Law School, Dole Street Crosswalk, and bus stop locations. For a detailed map, go to http://manoa.hawaii.edu/campusmap/

CHOOSE CLASSES: Neatly write the shortened title of each course or special event you wish to enroll in as listed on the Schedules on pp. 14-15 of the catalog. Enter your priority ranking. For COURSES indicate at least five choices using numbers to indicate your priority e.g., 1 for first choice, 2 for second, 3 for third, etc. For SPECIAL EVENTS use letters to indicate your priorities, e.g., “A” for first choice, “B” for second, etc. The first line is an example.

Note: You are unlikely to get into limited enrollment classes unless you rank them as either 1, or A.
